

1 **Policy:** **Clinical Services Program – Non-Credentialed**
2 **Practitioners**

3
4 **Date of Implementation:** **September 16, 2010**

5
6 **Product:** **Specialty**
7

8
9 **DEFINITIONS**

10 *Credentialed Practitioner* – A credentialed practitioner is an employee, independent
11 contractor or is associated with a contracted provider in some way and in some instances;
12 a contracted provider may be a credentialed practitioner. A credentialed practitioner is a
13 practitioner who has been credentialed with ASH and is duly licensed, registered or
14 certified, as required, in the state in which services are provided.
15

16 *Contracted Practitioner* – A contracted practitioner is a practitioner of health care services,
17 a group practice, or a professional corporation which or who has both been credentialed by
18 and contracted with ASH for the purpose of rendering professional services that are widely
19 accepted, evidence based, and best clinical practice within the scope of the contracted
20 practitioner’s professional licensure.
21

22 *Contracted Provider* – A contracted provider is any legal entity that (1) has contracted with
23 ASH for the provision of services to members; (2) operates facilities at which services are
24 provided; (3) is a credentialed practitioner or employs or contracts with credentialed
25 practitioners.
26

27 *Non-Credentialed Practitioner* – Non-credentialed practitioners considered to be out of
28 network (OON) or out of area (OOA) include those practitioners not credentialed with
29 ASH and those practitioners who are credentialed but are not participating in the member’s
30 health plan.
31

32 **PURPOSE**

33 The Clinical Services Program (CS Program) defines the process for monitoring and
34 evaluating treatment/services provided to members by non-credentialed practitioners. The
35 CS Program provides a structured approach to positively influencing provider behavior
36 toward conservative, evidence-based practices which may include verification of the
37 medical necessity of diagnostic and treatment services delivered to members. This
38 approach includes dissemination of clinical guidelines, peer-to-peer dialogue, peer review
39 of data submitted on Medical Necessity Review Forms (MNR Forms), Clinical Information
40 Summary Sheets (CISS), supporting documents or medical records by non-credentialed

1 practitioners, and clinical decision communications that reference the applicable guidelines
2 and clinical literature.

3
4 Every medical necessity verification decision is evaluated against established clinical
5 guidelines and review criteria which are supported by credible scientific evidence that
6 meets industry standard research quality criteria and are adopted as credible by an
7 American Specialty Health – Specialty (ASH) clinical peer review committee. Further, the
8 use of these practice parameters provides acceptable, scientifically valid, professionally
9 ethical, and responsible support for the decisions made in the management of clinical
10 services rendered to members. The CS Program defines the process for peer review
11 evaluation of the appropriateness and effectiveness of submitted treatment/services, which
12 include visits, examinations, diagnostic tests and/or procedures, and plan of care, including
13 but not limited to intervention and goals.

14
15 Written policies and procedures govern all aspects of the CS Program.

16
17 State mandates, regulatory requirements, accreditation standards, and/or specific health
18 plan delegation agreements may require modification of some sections of the CS Program
19 for compliance. Where this occurs, the CS Program is modified and approved as applicable.
20

21 **MISSION**

22 The mission of the Clinical Services Program – Non-Credentialed Practitioners (CS
23 Program) is to enhance the quality of treatment/services rendered to members through:

- 24 • Direction and oversight of the continuity of treatment/services provided to the
25 member;
- 26 • Detection of trends, patterns of performance, or potential problems related to
27 member health and safety issues;
- 28 • Management of quality, clinical efficacy, and utilization of member benefits to
29 encourage optimal clinical and cost effectiveness;
- 30 • Education of practitioners to utilize appropriate, efficient, and professionally
31 recognized standards of practice for medically necessary care through educational
32 materials, through outreach by clinical staff and through availability of standards
33 and guidelines on www.ashlink.com;
- 34 • Assurance that clinical staff who verify the medical necessity of treatment/services
35 are not compensated or given other incentives to make clinical adverse benefit
36 determinations nor for rendering decisions that encourage or result in under-
37 utilization;
- 38 • Assurance that quality assurance and medical necessity review decisions are based
39 only on appropriateness of care and treatment/services; and

- 1 • Assurance that quality assurance and medical necessity review decisions are
- 2 conducted consistently and according to professionally recognized standards of
- 3 practice and ASH policy.

4

5 **SCOPE**

6 ASH credentials various specialty healthcare practitioners. ASH offers administrative

7 services in support of healthcare reimbursement products.

8

9 The ASH Clinical Services Program (CS Program) defines the process for monitoring and

10 evaluation of treatment/services provided to members by contracted

11 providers/practitioners. The CS Program provides a structured approach to verify the

12 medical necessity and appropriateness of treatment/services delivered to members through

13 review of clinical data submitted by the provider/practitioner on Medical Necessity Review

14 Forms (MNR Forms) and/or supporting documents. Clinical decisions are made by peer

15 clinicians, when allowed by state regulations, who are appropriately licensed and

16 credentialed and who have experience in direct-contact patient management. The CS

17 Program also outlines ASH’s clinical and administrative services in support of the medical

18 necessity review process.

19

20 **GOALS AND OBJECTIVES**

21 The goals and objectives of the Clinical Services Program– Non-Credentialed Practitioners

22 (CS Program) include:

- 23 • Maintenance of accreditation by URAC and the National Committee for Quality
- 24 Assurance (NCQA);
- 25 • Operation of a fully staffed peer review system using credentialed, clinical quality
- 26 evaluators for timely clinical decision-making, consistency, and efficiency;
- 27 • Evaluation of the appropriateness and effectiveness of clinical treatment/services
- 28 provided to members as well as monitoring over-utilization, under-utilization,
- 29 continuity and coordination of care, and safety through verification of medical
- 30 necessity;
- 31 • Ensure equitable accessibility and availability to all members for medically
- 32 necessary care;
- 33 • Satisfaction of the demands of operational process efficiencies necessary to manage
- 34 business growth, reduce administrative expenses, and fulfill quality and service
- 35 expectations of customers, national accreditation agencies, and regulatory entities;
- 36 • Clear and timely communication of quality assurance and medical necessity review
- 37 decisions, which are based on peer-reviewed literature, educational based
- 38 textbooks, clinical practice guidelines and clinical services guidelines, to
- 39 practitioners and members;

- 1 • Analysis of member demographics and diagnoses to facilitate a better
2 understanding of the health status of ASH members as well as to determine disease
3 incidence and chronic conditions in the member population;
- 4 • Analysis of member service utilization data including but not limited to initial
5 exams/evaluations, subsequent exams/re-evaluations, office visits, x-rays,
6 laboratory tests, and other adjunctive services;
- 7 • Direction and oversight of clinical services data through the tracking and analysis
8 of data reflecting verification of medical necessity of treatment/services submitted,
9 as applicable;
- 10 • Development of systems to evaluate and determine which treatment/services are
11 consistent with accepted standards of practice;
- 12 • Coordination of timely and thorough investigations and responses to member,
13 practitioner and provider grievances and appeals related to the clinical services
14 process, if delegated;
- 15 • Initiation of systems and processes to identify and limit recurring issues related to
16 quality assurance and medical necessity reviews;
- 17 • Development and maintenance of systems processes to monitor clinical outcomes
18 of care through satisfaction and outcomes survey methods; and
- 19 • Maintenance of systems processes to encourage member health education by
20 making member health education information available on the company website
21 and by making specialty health information available for use by clients in their
22 member education programs.

23
24 **ORGANIZATIONAL STRUCTURE/ACCOUNTABILITY**

25 The Clinical Services Program – Non-Credentialed Practitioners (CS Program) has been
26 established with input and active participation of key staff and management. The Quality
27 Oversight Committee (QOC) has responsibility for the development and oversight of the
28 CS Program. The QOC includes, among others, the Chief Health Services Officer (CHSO),
29 Senior Vice President, Specialty Network Operations, Vice President, Clinical Services,
30 Vice President, Rehab Services, Vice President, Health Services, Medical Director, and at
31 least one credentialed practitioner.

32
33 The CS Program is reviewed, assessed, and approved annually and as necessary by the
34 appropriate quality committees, including the QOC. The responsibility for assessing and
35 monitoring the quality of care provided to members is delegated by the Board of Directors
36 (BOD) to the QOC. The CS Program is approved by the QOC, monitored by ASH senior
37 management, and the outcomes are reported to QOC and the BOD at least annually.

38
39 Clinical services activities and reports are integrated into the Quality Improvement
40 Program (QI Program), Quality Improvement Work Plan (QI Work Plan), and Annual

1 Quality Improvement Evaluation (Annual QI Evaluation) to ensure continuous quality
2 improvement. The Clinical Services department is responsible for coordinating the cross-
3 departmental development, approval, and reporting of the CS Program. The Corporate
4 Compliance Committee (CCC) is responsible for coordinating the cross-departmental
5 development, approval, and reporting of the QI Work Plan and necessary updates, Annual
6 QI Evaluation, and the Clinical Performance Program, and supports quality initiatives
7 under the direction of operations management and the QOC

8
9 **STAFF RESPONSIBILITIES**

10 ASH’s organizational chart accurately reflects the clinical staff, the Medical
11 Necessity/Benefit Administration (MNA) staff and reporting structures. Staff position
12 descriptions and committee charters explain the associated oversight and transactional
13 responsibilities and duties. The staff ratios are equivalent to ASH’s needs. Reporting
14 relationships are clearly defined. Interdepartmental coordination of medical necessity
15 review is clearly delineated in committee charters, team descriptions, department
16 responsibilities, and position descriptions.

17
18 Information is evaluated periodically from URAC, NCQA, Department of Labor (DOL),
19 and Centers for Medicare and Medicaid Services (CMS) in order to analyze internal
20 processes and ensure compliance. Staff are provided documentation, education, and
21 training to understand external regulatory and accreditation standards/requirements and
22 receive education and training in the standards and principles of these organizations as they
23 relate to their responsibilities during initial orientation and at least annually thereafter.

24
25 **Chief Health Services Officer**

26 The Chief Health Services Officer/Executive Vice President (CHSO) serves on the Quality
27 Oversight Committee (QOC) as executive sponsor and oversees the Clinical Services
28 departments, which includes Clinical Quality Administration, Clinical Quality Evaluation,
29 and Health Services, which includes Health Services Research. The CHSO serves on the
30 Board of Directors (BOD). The CHSO oversees approval and adoption of the Clinical
31 Services Program – Non-Credentialed Practitioners (CS Program) and supporting policies
32 regarding the operations, outcomes, and quality improvement initiatives affected by or
33 related to the CS Program. In conjunction with Clinical Quality Evaluation (CQE)
34 management staff and clinical quality committees, the CHSO oversees CS Program
35 implementation through the development of key goals, oversight of clinical operations,
36 ensuring timely completion of clinical services activities and management of clinical
37 decision-making. The CHSO supports the development and implementation of the QI
38 Program, QI Work Plan, and Annual QI Evaluation, including development of key goals
39 and quality strategies in conjunction with senior management and ASH’s clinical
40 committees. The integral role includes directing, managing, and ensuring timely
41 completion of clinical quality improvement activities performed by the Health Services

1 team. The CHSO is responsible for outcomes research and evidence review activities in
 2 support of the development of clinical guidelines and criteria that support ASH programs,
 3 including the CS Program. The CHSO has oversight of the clinical quality sub-committees,
 4 the Quality Improvement Committee (QIC), and the Practice Review Committee (PRC).
 5 The CHSO holds a current and unrestricted license to practice in his/her respective
 6 healthcare field and meets ASH credentialing criteria.

7
 8 The CHSO has the authority for ad hoc approval of policy on behalf of the QOC to meet
 9 regulatory, accreditation, or client requirements when time constraints for filings or other
 10 stakeholder expectations require rapid review and approval of policy. These ad hoc
 11 approvals are reviewed and adopted by the QOC.

12 13 **Vice President, Clinical Services and Vice President, Rehab Services**

14 The Vice President, Clinical Services and the Vice President, Rehab services, whose
 15 oversight includes chiropractic, acupuncture, therapeutic massage, naturopathy, and
 16 rehabilitation services, report to the BOD, by means of the CHSO, and is responsible for
 17 the oversight of clinical operations, clinical staffing and training, and clinical decision-
 18 making processes and procedures provided by the clinical review staff. The Vice President,
 19 Clinical Services and the Vice President, Rehab Services, hold a current and unrestricted
 20 license to practice in his/her respective healthcare field and meets ASH credentialing
 21 criteria.

22
 23 Additional responsibilities include:

- 24 • Development and implementation of the CS Program;
- 25 • Oversight of the organization and management of the CS Program’s financial
- 26 viability, including the allocation of resources and staffing;
- 27 • Oversight of clinical services staff and practitioner educational activities;
- 28 • Oversight of the Clinical Services Investigation Team and Health and Safety
- 29 Investigation Team;
- 30 • Management of the clinical operational linkage between the corporate strategy and
- 31 the implementation of the CS Program;
- 32 • Deployment of corporate mission, development of vision, and strategic operational
- 33 plan to the CS Program;
- 34 • Development and implementation of clinical policy and guidelines, in conjunction
- 35 with the Clinical Quality Team (CQT) and the QIC;
- 36 • Voting member of the Corporate Compliance Committee (CCC);
- 37 • Voting member of the QIC (the Vice President, Clinical Services also serves as the
- 38 Co-Chairperson of QIC);
- 39 • Voting member of the QOC;

- Provision of adequate resources to support and oversee the development of quality improvement activities related to the clinical services process;
- Analysis of the effectiveness of the CS Program; and
- Oversee the evaluation of consistency and quality audits in the medical necessity review process at least semi-annually.

Medical Director

Medical Directors, report to either the Vice President, Clinical Services or the Vice President, Health Services, and are responsible, as defined in applicable job descriptions, for clinical operations, clinical staffing and training, and/or clinical decision-making processes and procedures provided to the clinical review staff for specialties managed by ASH. Medical Directors hold current and unrestricted licenses to practice in medicine (MD/DO) in a state, territory or commonwealth of the United States, requisite certifications as required by state regulation(s) and meet ASH credentialing criteria.

- Additional responsibilities include, as applicable: Oversight of medical necessity review and quality assurance activities in accordance with accreditation and regulatory requirements;
- Examination and provision of direction regarding the identification and management of clinical matters that require allopathic-specialty practitioner co-management;
- Co-chair of Quality Improvement Committee (QIC); and supports clinical decision making of clinical committees as assigned;
- Provides management decision-making and participates in decision-making regarding the clinical operational administration of the programs assigned;
- Supports the development of clinical practice guidelines, credentialing criteria, and other clinical decision assist tools;
- Provides medical support to the development of clinical programs and serves on project management teams collaborating with operations and other administrative departments as assigned;
- Voting member of the QIC (the Medical Director, Clinical Services also serves as the Co-Chairperson of QIC); and
- Voting member of the QOC responsible for review, approval, and adoption of policies, including the CS Program, and other policy/operational documentation.

Senior Management of Clinical Services Departments

Senior management staff of the Clinical Services department report to the Vice President, Clinical Services, the Vice President, Rehab Services, or a Medical Director and maintain active, current and unrestricted licenses, certifications, or registrations and meet ASH's credentialing criteria used for the applicable specialty.

1 Senior management staff of the Clinical Services department are available to staff on site
2 or by telephone and are responsible for clinical services activities, interaction with Medical
3 Necessity/Benefit Administration, and evaluation of clinical services appeals.

4
5 Additional responsibilities include:

- 6 • Development of processes to support and enhance clinical services;
- 7 • Coordination of clinical appeals with external clinical consultants and appropriate
8 peer review committees;
- 9 • Identification of practice patterns that may warrant inquiry letters or clinical
10 Corrective Action Plans (CAPs);
- 11 • Assisting with CAP compliance through educational activities;
- 12 • Providing input into the development and review of clinical service and practice
13 guidelines, decision-making criteria, outcome assessment tools, and clinical policy;
- 14 • Identification and development of educational topics and materials for distribution
15 and/or presentation to practitioners;
- 16 • Participation in clinical committees as assigned by the BOD;
- 17 • Participation in interdepartmental key process teams as assigned by the Vice
18 President, Clinical Services, the Vice President, Rehab Services, or a Medical
19 Director;
- 20 • Support and implementation of quality improvement initiatives related to clinical
21 services;
- 22 • Resolution of clinical issues and oversight of the evaluation process of clinical
23 decision-making including monitoring documentation for adequacy and inter-rater
24 reliability for each level and type of clinical services (UM) decision;
- 25 • Clinical training and day-to-day supervision of clinical quality evaluators; and
26 • Evaluation of performance and counseling of staff.

27
28 **Clinical Quality Evaluators**

29 Clinical quality evaluators report to Clinical Services senior management staff. Clinical
30 quality evaluators maintain an active, current, and unrestricted license, registration, or
31 certification applicable to the medical necessity verification and other quality review work
32 they are assigned to perform. ASH staff will meet the credentialing criteria for the
33 applicable specialty. Their professional education, training, and experience are
34 commensurate with the clinical evaluations they conduct.

35
36 Written job descriptions for the clinical quality evaluators are maintained in personnel
37 records. Responsibilities include:

- 38 • Evaluation of the medical necessity of submitted treatment/services;
- 39 • Approval of medically necessary and appropriate treatments/services;
- 40 • Enhancement of continuity and coordination of services whenever possible;

- 1 • Recommendation of continuous quality improvement clinical services initiatives;
- 2 • Identification of quality of care or treatment/service concerns;
- 3 • Provision of outreach and education to practitioners as needed;
- 4 • Endorsement of the principles and procedures of clinical services and the DOL,
- 5 NCQA, URAC, and CMS standards;
- 6 • Provision of clinical opinions regarding the medical condition, procedures, and
- 7 treatment under review, as necessary; and
- 8 • Identification of psychosocial or other co-morbid conditions or the presence of
- 9 symptoms or conditions that suggest the need for redirection to or co-management
- 10 with a physician or other appropriate healthcare practitioner through the evaluation
- 11 of MNR Forms and medical records. When evidence of such a need is identified,
- 12 the clinical quality evaluator may, as appropriate, consult with the Senior
- 13 Management staff of the Clinical Services department and notify the practitioner to
- 14 facilitate coordination of care with other appropriate healthcare practitioners.

15
16 All personnel that make medical necessity review decisions and those who supervise them
17 are apprised that:

- 18 • No punitive action may be taken against a practitioner for supporting a member in
- 19 a standard or expedited appeal request;
- 20 • Medical necessity review decisions are based on an evaluation of submitted clinical
- 21 information and adopted clinical standards of practice, and is solely for the purpose
- 22 of determining whether the submitted services can be approved for benefit coverage
- 23 based on appropriateness and medical necessity;
- 24 • Clinical decisions made by clinical quality evaluators are non-discriminatory of any
- 25 personal characteristics of the practitioner or member;
- 26 • Clinical quality evaluators, practitioners, or other individuals who make medical
- 27 necessity review decisions are not rewarded for issuing denials of benefit coverage
- 28 for health care services; and
- 29 • Clinical quality evaluators are not eligible for, nor do they receive, financial
- 30 incentives that encourage or result in under-utilization; and their decisions to
- 31 withhold, delay, or not approve medically necessary treatment/services are not
- 32 connected to any bonus or incentive program.

33
34 **Medical Necessity/Benefit Administration Staff**

35 Medical Necessity/Benefit Administration (MNA) staff are responsible for coordinating
36 the administrative management of the review process by entering administrative
37 information into the clinical services database system, Integrated Health Information
38 Systems (IHIS). MNA staff evaluate demographic and administrative compliance
39 components of the MNR Form submission process. ASH clinical quality evaluators are
40 available to MNA staff during this process. The MNA staff do not influence or make

1 decisions regarding medical necessity of treatment/services or interpret clinical decisions,
2 and ASH does not issue adverse benefit determinations of medical necessity based on
3 administrative review of MNR Forms. The MNA Director is responsible for evaluating
4 administrative data entry accuracy, in accordance with client and regulatory requirements
5 and ASH policy and procedures.

6
7 Additional responsibilities include:

- 8 • Verification of member eligibility and benefit coverage;
- 9 • Verification that practitioners are credentialed and verification that providers are
10 contracted;
- 11 • Data entry of MNR Form, CISS, or medical records information into IHIS;
- 12 • Coordination of evaluations with clinical quality evaluators and data entry of
13 clinical decisions into the database as necessary;
- 14 • Coordination of communication of decision responses to practitioners and
15 members; and
- 16 • Collection of member documentation for clinical quality evaluators as necessary to
17 evaluate member history and previous treatment.

18
19 MNA staff receive training about data collection requirements and ensure data are entered
20 in a timely manner. The MNA staff also receive training regarding external regulatory,
21 accreditation, and client requirements affecting their position responsibilities.

22
23 The Vice President, Clinical Services, the Vice President, Rehab Services and a Medical
24 Director oversee the operational process via the MNA management staff of and, in
25 collaboration with the Clinical Services team, oversees the interface between MNA staff
26 and the Clinical Services department.

27 **Non-Credentialed Practitioners**

28 Initial treatment/services may be available to members on a direct access basis, where
29 allowed by state law and/or scope of practice regulations. However, health plan delegation
30 agreements, benefit design, state mandates, and regulatory requirements may necessitate a
31 referral. Members may change practitioners at any time.

32
33
34 If the member requires more treatment/services than are available within the applicable
35 client specific treatment waiver, an additional request for services must be submitted for
36 verification of medical necessity of those additional treatment/services by a clinical quality
37 evaluator.

38
39 Non-credentialed practitioners submit information that is necessary to evaluate and verify
40 the medical necessity of submitted treatment/services to MNA. Required information is

1 limited to only that necessary to identify the member and practitioner and to conduct the
2 clinical review. This includes:

- 3 • Patient information: name, address, telephone number, date of birth, sex, member
4 ID number, plan ID number, and subjective complaint(s);
- 5 • Member information (if different from patient information): name, employee ID
6 number, relationship to patient, employer, group number, and other coverage
7 available;
- 8 • Attending practitioner information: name, address, telephone number, fax number,
9 degree/license/certification/registration, Tax ID number or National Provider
10 Identifier (NPI);
- 11 • Appropriate clinical information: diagnoses, examination/assessment findings,
12 symptoms, type of treatment/services submitted or provided, duration of
13 treatment/services submitted or provided, number of treatment/services submitted
14 or provided, supports and appliance(s) (if applicable), rationale for initiation or
15 continuation of care, measurable outcome of care information, discharge plan
16 (anticipated release date); and coordination of care or referral; and
- 17 • History and clinical evaluation findings sufficient to substantiate the diagnoses (if
18 applicable) and support the level of treatment/services submitted or provided.

19
20 **COMMUNICATION SERVICES**

21 **Availability During Business Hours**

22 Customer Service representatives are available by fax, electronic, or telephonic
23 communications, including voicemail, from 5:00 a.m. to 8:00 p.m. PT during normal
24 business days to respond to inquiries from members, practitioners, and/or facility
25 personnel. Such inquiries may include general clinical services administrative questions
26 and requests for information regarding specific medical necessity review requirements and
27 procedures. Customer Service representatives document inbound communications and
28 their response in the ASH proprietary communication log. Customer Service
29 representatives may refer specific inbound clinical services communications to Medical
30 Necessity/Benefit Administration (MNA) staff or clinical quality evaluators, as
31 appropriate.

32
33 MNA staff and clinical quality evaluators are available at least eight (8) hours a day during
34 normal business hours to receive inbound and perform outbound communication regarding
35 clinical services issues. MNA staff and clinical quality evaluators provide telephone and
36 fax numbers and/or secure electronic access to practitioners for inbound communication.

- 37 • Outbound communications may include directly speaking with practitioners and
38 members or fax, electronic, or other telephonic communications, including secure
39 electronic mailbox and voicemail;

- 1 • Staff identifies themselves by name, title, corporate name, and license/certification
2 number, where applicable, when initiating or returning calls regarding clinical
3 services issues; and
- 4 • Inquiries and responses are documented in the ASH proprietary communication
5 log. ASH provides a toll-free number for calls regarding clinical services issues and
6 the ability to speak to a clinical quality evaluator.

7
8 Communications received after normal business hours are returned on the next business
9 day and communications received after midnight on weekdays (Monday – Friday) are
10 responded to on the same business day.

11
12 Inbound and outbound telephone calls may be monitored or recorded for quality assurance
13 purposes.

14
15 **Availability Outside Normal Business Hours**

16 ASH provides a toll-free number and e-mail address for communications regarding clinical
17 services issues. Customer Service, MNA, and clinical quality evaluators retrieve or respond
18 to all routine, non-urgent messages no later than the next business day.

19
20 A contracted answering service screens after-hours calls. If a member or practitioner states
21 the issue is urgent, ASH’s “on call” Customer Service supervisor is contacted. The “on
22 call” supervisor returns the member’s or practitioner’s call and provides assistance. If the
23 issue is of an urgent clinical nature, an ASH senior clinician is contacted immediately and
24 notified of the issue for resolution. The member or practitioner call and resolution are
25 documented in the ASH proprietary communication log the next business day.

26
27 Capacity of voicemail service, answering machine, or e-mailbox is monitored and adjusted
28 as needed to accept the volume of incoming communications.

29
30 **Disclosure Regarding Access to Clinical Services**

31 Information regarding the process for accessing customer services, inquiries regarding
32 MNA or clinical quality evaluation and/or clinical services is disclosed to members and
33 practitioners on ASH’s public website and includes ASH’s toll-free telephone number as
34 well as hours of operation.

35
36 **Member Assistance**

37 ASH ensures that members have access to a representative by providing assistance to those
38 with limited English proficiency or with a visual or other communicative impairment. ASH
39 maintains a toll-free telephone number answered by representatives who are trained to
40 facilitate interpretation services. ASH representatives have access to a language line that
41 offers over-the-phone interpretation from English into more than 200 languages. When a

1 representative identifies a need for language assistance, a three-way call to the interpreter
 2 is usually initiated within 60 seconds or less. ASH is also prepared to receive TDD calls
 3 from members with communicative impairments.

4 **APPLICATION OF STANDARDIZED CLINICAL GUIDELINES**

6 In an effort to assist in the management of a positive clinical outcome and provide fairness
 7 and consistency, clinical guidelines are developed and adopted with involvement of
 8 appropriate, actively practicing practitioners with current knowledge for criteria
 9 applicability. Practitioners may also be employees of in- network providers. Actively
 10 practicing practitioners also have the opportunity to comment on the instructions for
 11 applying the evidence-based criteria. Clinical services decisions are based on clinical
 12 guidelines that:

- 13 • Reflect sound clinical evidence;
- 14 • Are developed from an evaluation of current applicable scientific literature;
- 15 • Represent consensus of committees comprised of credentialed practitioners;
- 16 • Incorporate expert opinion, when applicable; and
- 17 • Allow for modification secondary to consideration of the individual needs of the
 18 member and characteristics of the local delivery system.

20 Criteria based on individual contributing factors such as age, co-morbidities,
 21 complications, and clinical progress are applied when making individual clinical services
 22 decisions.

24 Clinical decision-making guidelines are evaluated annually and updated when appropriate.
 25 Guidelines may be reviewed by clinical committees and modified any time there is new
 26 clinical evidence that changes the clinical opinion regarding a given disease, condition, or
 27 procedure. The Clinical Quality Team (CQT) is an internal workgroup that provides
 28 research and recommendations for clinical decision-making guidelines development and
 29 criteria for appropriateness of utilization. Clinical decision-making guidelines are reviewed
 30 and approved by the Quality Improvement Committee (QIC) and the Quality Oversight
 31 Committee (QOC) on behalf of the Board of Directors (BOD) prior to implementation.

33 Clinical quality evaluators are provided with clinical decision-making guidelines and
 34 receive training in the application of the criteria. These guidelines enable clinical quality
 35 evaluators to evaluate the medical necessity of diagnostic procedures and therapeutic
 36 interventions submitted by practitioners or provided to members. Clinical guidelines and
 37 revisions are made available on the ASH public website, through a secured practitioner
 38 website, or provided to all practitioners, as applicable.

40 Members and the public may request (free of charge) these clinical decision-making
 41 guidelines by contacting Customer Service. The following disclosure statement will be

1 included in the cover letter to the requesting individual: “The materials provided are
2 guidelines used by ASH to verify the medical necessity of treatment/services for persons
3 with similar illnesses or conditions. Specific care and treatment may vary depending on
4 individual need and the benefits covered by your contract.” The clinical guidelines are also
5 available on the ASH public website.

6
7 When used as clinical adverse benefit determination criteria, clinical guidelines may be
8 shared with practitioners or members to explain the rationale for the adverse benefit
9 determination of a given treatment/service. It is the responsibility of the clinical quality
10 evaluator to apply his/her clinical expertise when using these guidelines as individual
11 findings such as severity factors or co-morbidities may influence medical necessity
12 decisions.

13
14 An executive summary of the Clinical Services Program (CS Program) is available on the
15 ASH public website. Members and the public may also request a copy of the process by
16 which ASH verifies the medical necessity of submitted treatment/services by contacting
17 ASH by telephone, fax, or email. The contact information for each method is also on the
18 ASH public website.

19 20 **MEDICAL NECESSITY REVIEW**

21 Medical necessity review decisions are made by peer clinical quality evaluators and, where
22 applicable, Board Certified consultants. Clinical quality evaluators maintain an active,
23 unrestricted license, certificate, or registration in their specialty in a state or territory of the
24 United States, with professional education, training, and experience commensurate with
25 the medical necessity reviews they conduct. Unless otherwise expressly allowed by state
26 or federal laws or regulations, clinical quality evaluators are located in a state or territory
27 of the United States when evaluating a medical necessity review determination. Decisions
28 include approval or denial for benefit coverage of services based on an evaluation and
29 verification of medical necessity, assessment of quality of care, coordination and provision
30 of alternate levels of care, and evaluation of appropriate levels of care.

31
32 A medical physician conducts medical necessity review of physical medicine therapy
33 services (PT, OT, ST) when the referring provider and/or patient requests that a physician
34 conduct the review. In addition, a medical physician conducts the medical necessity review
35 of physical medicine therapy services when a patient’s response to treatment requires
36 physician intervention as indicated by medical or scientific evidence or clinical practice
37 guidelines, such as when a patient:

- 38 • Has an adverse reaction to the treatment, or
- 39 • Is not responding to treatment (failure to progress), or
- 40 • Regresses to an earlier level of functioning or disease state (i.e., morbidity
41 increases).

1 Pre-service medical necessity review decisions are made based solely on the information
2 available to the practitioner and communicated to ASH at the time that clinical care was
3 requested.

4
5 Concurrent/post-service medical necessity review decisions are made based solely on the
6 information available to the practitioner and communicated to ASH at the time that clinical
7 care was provided.

8
9 Denial decisions may be overturned when the practitioner submits additional clinical
10 information not available to the clinical reviewer at the time of the initial decision. ASH
11 encourages peer to peer conversations when appropriate regarding medical necessity
12 determinations.

13
14 Approval decisions may only be reversed when additional information related to member
15 eligibility and/or benefit information is received and is either materially different from that,
16 which was reasonably available at the time of the original decision, or is a result of fraud,
17 or was submitted erroneously. In the case of a reversal, ASH would continue to provide
18 coverage and make payment for the currently approved ongoing course of treatment while
19 an internal appeal is under review.

20
21 Members and practitioners are notified, as applicable, of service evaluation decisions
22 within time frames specified in the *Medical Necessity Review – Non-Credentialed*
23 *Practitioners (UM 2 Non-Credentialed Practitioners – S)* policy.

24
25 For information on urgent/emergent services please see the *Urgent/Emergent Services (UM*
26 *13 – S)* policy.

27
28 ASH does not conduct on-site (facility-based) medical necessity reviews.

29
30 **Pre-Service Review**

31 All treatment/services submitted by the practitioner for verification of medical necessity
32 that are submitted prior to the provision of treatment/services or after treatment/services
33 were initiated but before the ending date of service (DOS) are managed under the definition
34 of pre-service review.

35
36 **Concurrent Review**

37 Concurrent reviews are typically associated with inpatient care or ongoing ambulatory
38 care. A concurrent review decision is any review for an extension of a previously approved
39 ongoing course of treatment over a period of time or number of treatments. A request to
40 extend a course of treatment beyond the period of time or number of treatments previously
41 approved by ASH is handled as a new request and decided within the time frame

1 appropriate to the type of decision (i.e., non-urgent pre-service, urgent pre-service or post-
2 service).

3 **Post-Service Review**

4 All treatment/services submitted after the ending date of service (DOS) for verification of
5 medical necessity are managed under the definition of post-service review.
6

7 **Urgent Service Review**

8 Urgent services are requests for healthcare services or treatments that require an expedited
9 review and medical necessity determination because the time period allowed for non-
10 urgent care determination is too lengthy and could present a health and safety issue.
11

12 **Approval Decisions and Adverse Benefit Determinations**

13 Only a clinical quality evaluator who holds a current license/certification/registration to
14 practice without restriction and is successfully credentialed may verify medical necessity
15 of submitted treatment/services.
16

17 **Requests for Additional Information**

18 If MNR Forms, CISSs, or medical records are submitted without the necessary clinical or
19 administrative information, clinical quality evaluators or MNA staff attempt to obtain the
20 missing information by calling the practitioner. If ASH is unable to make a determination
21 due to missing necessary information, the time period for making the decision may be
22 suspended according to the time frames specified in the *Medical Necessity Review – Non-
23 Credentialed Practitioners (UM 2 Non-Credentialed Practitioners – S)* policy.
24

25 **Second Opinions**

26 As members have the right to change practitioners at any time, a member may seek a
27 second opinion by seeing another practitioner in the member’s service area as defined by
28 their benefits.
29

30 **Reopen (Peer-to-Peer Conversation)**

31 Information may be submitted in support of a reopen if one or more treatment/services
32 previously submitted resulted in an adverse benefit determination due to a failure to provide
33 sufficient supporting documentation.
34

35 **Additional Service Requests (Modifications)**

36 Modification may be requested for an approved course of care to request additional
37 treatment/services beyond those already submitted for verification of medical necessity for
38 the episode of care (e.g., x-rays, procedures/modalities, and office visits) or to request a
39 modification to the time period already submitted for the delivery of treatment/services.
40

1 **COORDINATION OF CARE**

2 During the clinical quality evaluators’ evaluation of member and clinical information
 3 submitted on MNR Forms, CISSs, or medical records to verify the medical necessity of
 4 submitted treatment/services, the clinical quality evaluators also review for appropriate
 5 coordination of care. This may include referral information, contraindications to care,
 6 and/or communication with the member’s physician or other health care practitioners, as
 7 applicable. Should coordination with or without referral to another health care practitioner
 8 be indicated, and no evidence of coordination of care is documented in the MNR Form,
 9 CISSs or the medical records submitted, the clinical quality evaluator will take the
 10 appropriate steps to ensure patient safety and optimum outcomes of care. Options available
 11 to the clinical quality evaluator include, but are not limited to, contacting the practitioner
 12 to ensure coordination has occurred, notifying the practitioner in an MNR Form that
 13 coordination of care appears indicated, and/or taking no action if the coordination appears
 14 beneficial, but would have no direct impact on patient safety or clinical outcomes. ASH
 15 encourages interprofessional communication between its practitioners, credentialed
 16 practitioners and the member’s physician or other health care practitioners, as applicable.
 17

18 **HEALTH AND SAFETY INVESTIGATION TEAM**

19 The Health and Safety Investigation Team (HSIT) operates as a cross-functional team
 20 within the Clinical Quality Evaluation (CQE) and the Clinical Quality Administration
 21 (CQA) processes. The HSIT identifies potential health and safety issues where
 22 documentation for treatment/services submitted by the practitioner indicates the possibility
 23 of an underlying condition that may require further investigation and/or referral for co-
 24 management or alternate management. The HSIT manages these cases to resolution. In
 25 addition, the HSIT investigates issues related to child and elder abuse and/or neglect. ASH
 26 has implemented protocols for managing cases involving abuse and/or neglect in
 27 compliance with state laws and regulations. HSIT activities are tracked through ASH’s
 28 information systems and aggregate data is reported to the Quality Improvement Committee
 29 (QIC) and the Quality Oversight Committee (QOC) on a quarterly basis in the clinical
 30 performance management report. Analysis of results is trended to identify potential
 31 opportunities for improvement relating to health and safety. The Vice President, Clinical
 32 Services, the Vice President, Rehab Services, and a Medical Director advise the HSIT, as
 33 needed.
 34

35 If the HSIT identifies an apparently egregious health and safety issue that cannot be
 36 resolved by standard HSIT protocols, the issue is presented to the CHSO or designee for
 37 immediate review and recommended action. [See the applicable *Clinical Services Alerts*,
 38 *Clinical Performance Alerts*, and *Corrective Action Plans (Practitioner/Provider Clinical*
 39 *Issues) (QM 2 – S)* policy for additional information regarding Alerts and CAPS; and the
 40 *Practitioner Clinical Denials, Terminations, and Appeals (CR 3 – S)* policy regarding
 41 practitioner terminations or decredentiaing.]

1 **CLINICAL QUALITY REPORTING TEAM**

2 When a significant issue, either a single egregious event or a significant trend, is identified
3 by a clinical quality evaluator involving a non-credentialed practitioner, the clinical quality
4 evaluator will review the case and any associated Medical Necessity Review Forms and
5 submit this information to the Clinical Quality Reporting Team (CQRT). In addition to
6 receiving information from clinical quality evaluators, the CQRT may also receive trending
7 issues from ASH staff whenever an issue becomes apparent from the review of out of
8 network Clinical Services Investigation Team data.

9
10 CQRT may request and use medical records with reviewing instances or patterns of
11 practitioner behavior that may fail to meet professionally recognized standards of practice
12 or the clinical services management process.

13
14 CQRT will review the submitted information and make a recommendation to

- 15 • Close the issue, requiring approval by the Vice President, Clinical Services or the
16 Vice President, Rehab Services or designated senior clinical staff;
- 17 • Provide education information and make a recommendation for closure of the issue;
- 18 • Provide education information to the non-credentialed practitioner; or
- 19 • Refer their recommendations to the Practice Review Committee (PRC) for further
20 review.

21
22 If referred to PRC, they will review the submitted information and make a recommendation
23 to:

- 24 • Close the issue;
- 25 • Report the practitioner to any applicable State regulatory agency and send a
26 notification letter to the Medical Director of designated Quality Assurance staff at
27 the member’s health plan;
- 28 • Provide education information; or
- 29 • Pursue other actions.

30
31 The report to the State regulatory agency and notification to the health plan will contain
32 the following information:

- 33 • Practitioner name and specialty;
- 34 • Practitioner license number;
- 35 • Summary and specific details of the quality of care, documentation and/or billing
36 issue.

37
38 **EVALUATION OF NEW TECHNOLOGIES**

39 The Clinical Quality Team (CQT), in conjunction with the Evidence Evaluation Committee
40 (EEC) and the Quality Improvement Committee (QIC), are responsible for evaluating new

1 clinical technologies used in practice and new application of existing technologies and
 2 whether to recommend the new technology or new application as an appropriate addition
 3 to the benefit package. Committee members assist in the evaluation of information obtained
 4 from appropriate government regulatory bodies and published scientific evidence. Input is
 5 solicited from relevant specialists and professionals who have expertise in the technology.
 6 Decision variables considered include health risks, improvements in health outcomes,
 7 and/or improved health benefits as compared to existing covered technology.

8
 9 Any benefit change related to clinical procedures and new technologies will be evaluated
 10 and approved by the Quality Oversight Committee (QOC) and the Board of Directors
 11 (BOD). ASH will communicate with contracted clients, as stipulated by delegation
 12 agreements, prior to implementation of any changes in benefit related to clinical procedures
 13 and new technologies to ensure a mutually agreeable determination. The clinical
 14 procedures and new technologies, that, in the opinion of ASH clinical committees/teams,
 15 are not clinically effective and/or do not have an improved health benefit over existing
 16 technology may not be recommended for addition to the benefit package.

17 **CLINICAL SERVICES PROGRAM MONITORING**

18 Ongoing monitoring of the Clinical Service Program – Non-Credentialed Practitioners (CS
 19 Program) is conducted through evaluation of Performance Standards reports, Clinical
 20 Performance reports, and the Annual QI Evaluation. Monitoring activities may be specific
 21 to administrative processes, clinical practices, providers, practitioners, members,
 22 populations, or product lines. Quality Improvement initiatives may be recommended to
 23 eliminate deficiencies and enhance outcomes related to clinical services activities. These
 24 reports are presented to the Quality Oversight Committee quarterly and once approved, are
 25 provided to external customers according to contract and/or delegation agreements. Areas
 26 evaluated may include but are not limited to:

- 27 • Member visits and services rendered;
- 28 • Average radiology service approvals per member;
- 29 • Average number of exams/evaluations per patient, dates of service or interventions
 30 approved/utilized per member per condition;
- 31 • Clinical appeals from members, providers and practitioners;
- 32 • Distribution of diagnosis codes by category/specialty;
- 33 • Adverse outcome indicators;
- 34 • Member grievances;
- 35 • Clinical services alert and clinical performance alert clinical indicators;
- 36 • Number of service approvals and adverse benefit determinations rendered;
- 37 • Clinical services decision profile (MNRF codes);
- 38 • Access and availability of clinical services; and
- 39

- Clinical services profile (evaluations, clerical error rates, clinical consistency, and education program).

MONITORING CONSISTENCY OF APPLYING MEDICAL NECESSITY REVIEW (MNR) CRITERIA AND THE EVALUATION OF INTER-RATER RELIABILITY (IRR)

Evaluating the consistency in clinical quality evaluation management decisions and the evaluation of proper application of MNR criteria through inter-rater reliability analysis and random medical necessity review audits ensures that medical necessity review decisions are consistent, fair and adhere to decision-making guidelines. The following two (2) – step IRR process accomplishes these goals and is compliant with all applicable accreditation, state and federal regulatory requirements.

Step #1: Specifically Developed (hypothetical) Clinical Services (UM) - test cases. Annual testing is conducted of all applicable clinical quality evaluators within a specific specialty type, using identical cases, for specialties with > 2 clinical quality evaluators and when ASH has active business in this specialty type. Specifically developed clinical services (UM) test cases, for each specialty tested, are developed from a variety of conditions typically encountered during the MNR process. Test responses to targeted items such as communication of rationale, approval/denial of services, recognition of cases with co-morbid conditions/co-management requirements, and contraindications to services.

Step #2: Random or “real time” medical necessity determination audits are conducted annually to ensure that medical necessity determinations are accurate, appropriate, and consistent with ASH Clinical Practice Guidelines or other valid guidelines, as applicable.

ASH evaluates the consistency with which ASH clinical quality evaluators involved in rendering MNR determinations apply guidelines in decision making and acts on opportunities to improve consistency, if applicable. Each audited case is assessed for the consistency with which the reviewer applies ASH established Clinical Practice Guidelines, other appropriate guidelines, the appropriateness of all determinations and the communication of rationale, if applicable. Unsupported determinations, inappropriate communication of rationale and opportunities for individual and/or process improvement are noted and communicated to the clinical reviewer(s) and other ASH staff, as appropriate.

Specialty and individual clinical quality evaluator results of both processes are provided, by the auditor of each specialty, to appropriate ASH clinical leadership. Specialty-wide results are tabulated and trended to identify opportunities for improvement, including development of additional clinical guidelines and/or development of consensus related to existing guidelines. Individual results are tabulated and trended in order to identify opportunities for improvement related to errors in the application of existing guidelines.

1 As needed, corrective actions are implemented to improve process or individual
 2 performance. Specialty results are also reported through ASH Clinical Performance
 3 Management (CPM), the California Health Plan Assessment (CAHPA) reports, as
 4 applicable, and presented to ASH Specialty Network Quality Improvement Committee
 5 (QIC).

6
 7 Staff clinicians attend Continuing Education lectures to reinforce their clinical knowledge
 8 base and remain current with emerging technologies and evolving standards of practice.
 9 Staff clinicians also review assigned articles from peer reviewed journals or other
 10 appropriate sources germane to MNR activities and evidence-based practices. Clinical
 11 quality evaluators are tested on the information contained in selected evidence-based
 12 sources.

13
 14 **CLINICAL COMMITTEE STRUCTURE**

15 The clinical committee structure and membership are identified in the committee charters
 16 for the Practice Review Committee (PRC) and the Quality Improvement Committee (QIC).
 17 Each charter for these committees contains detailed information such as chairperson,
 18 voting membership, functions, meeting frequency, quorum, staff participation, and
 19 reporting structure.

20
 21 **Practice Review Committee**

22 **Functions**

23 The PRC performs the following functions related to the medical necessity review process:

- 24 • Provide peer review functions for clinical practice review, quality assurance and
 25 medical necessity review, and clinical performance review;
- 26 • Review and approve clinical policy related to clinical practice review;
- 27 • Review and approve the Clinical Performance Systems quantitative and qualitative
 28 measures;
- 29 • Review and make recommendations regarding quality of care grievances;
- 30 • Review recommendations from CQRT;
- 31 • Issue and monitor Clinical Corrective Action Plans and Sanctions;
- 32 • Issue Clinical Quality Termination and de-credentialing decisions;
- 33 • Report practitioners to applicable agencies as appropriate (e.g., State Examining
 34 Boards, NPDB);
- 35 • Provide recommendations for quality improvement activities; and
- 36 • Provide reports to Chief Health Services Officer (CHSO)/QIC and, as appropriate,
 37 recommendations to the Quality Oversight Committee (QOC) with regard to
 38 clinical quality, quality assurance, or quality improvement activities.

1 **Quality Improvement Committee**

2 **Functions**

3 The QIC performs the following functions related to the medical necessity review process:

- 4 • Peer review for initial credentialing practitioner denial appeals;
- 5 • Review and approve of clinical policy and clinical practice guidelines;
- 6 • Review Clinical Quality Administration (CQA) and Board of Directors (BOD) reports of immediate terminations and de-credentialing;
- 7 • Provide reports to the BOD and, as appropriate, the QOC with regard to clinical quality, quality assurance, or quality improvement activities which may include but are not limited to:
 - 11 ○ Clinical Performance reports;
 - 12 ○ Quality Improvement studies;
 - 13 ○ Clinical elements of Annual QI Work Plan;
 - 14 ○ Clinical elements of Annual QI Evaluation;
 - 15 ○ Practitioner and Member Satisfaction Survey results;
 - 16 ○ Quality audits;
 - 17 ○ Inter-Rater Reliability (IRR) audits;
 - 18 ○ Clinical Performance Reports;
 - 19 ○ Aggregate outcomes of peer review decisions; and
 - 20 ○ Delegation oversight reports.

21

22 **Chairperson Responsibilities**

23 The committee chairperson or official designee is responsible for effective meeting management, priority setting for agenda items, approval of guest attendance, signing approved documents as applicable on behalf of the committee, ensuring committee tasks are completed in a timely manner, calling for votes, following up on issues identified by the committee, ensuring that accurate meeting minutes are maintained, and reporting to supervisory committees.

29

30 **Meeting Minutes**

31 Committee meeting minutes are taken contemporaneously, dated, and signed by the chairperson and in some instances, recording secretary. Confidentially maintained minutes reflect all committee business, including key discussions, recommendations, decisions, actions, review and evaluation of activities, and evaluation of policies. Minutes also include actions instituted by the committee, including appropriate follow up, evaluation of documents, and active practitioner participation. Subcommittee reports are evaluated on a regular basis, when applicable.

38

39 Minutes are reviewed and approved by vote of the appropriate committee in a timely manner with best effort made to finalize at the next scheduled meeting. All agendas,

40

1 minutes, reports, and documents presented to committees are maintained in a confidential
2 electronic format and are available upon request, as appropriate.

3
4 **Term of Membership**

5 The BOD appoints committee chairpersons and annually approves committee charters and
6 membership. Each member serves at the request of the BOD and may be removed at any
7 time. All employees are bound by the company confidentiality policy. External committee
8 members must sign an annual confidentiality statement. Credentialed practitioners may not
9 currently serve on committees if they are a principal owner, board member, consultant,
10 clinical quality evaluator, or committee member of another managed care organization or
11 independent practitioner association. All members are required to disclose in writing any
12 potential conflicts of interest that may arise during the course of their service on the
13 committee. Committee members may not copy or distribute any documents without the
14 expressed written consent of the committee chairperson.

15
16 **Urgent Issues Between Meetings**

17 Ad hoc meetings may be called when pressing issues require immediate resolution. The
18 committee chair reports the issue and resolution to the committee at the next meeting.
19 Committee members may also be reached via teleconference, fax, and/or e-mail when
20 committee input is necessary. The unanimous written consent process may be used when
21 members are unavailable for a meeting.

22
23 **Guest Attendance at Committee Meetings**

24 Health plan representatives and other guests may attend committee meetings with
25 permission of the President/Chief Operations Officer and/or committee chair. All non-staff
26 guests sign a confidentiality statement for each meeting attended. Guests may only attend
27 portions of the committee meeting pertinent to their business issues.

28
29 **HEALTH INSURANCE PORTABILITY AND ACCOUNTABILITY ACT**
30 **(HIPAA)**

31 ASH strives to comply with all applicable HIPAA requirements and maintains policies
32 relating to HIPAA compliance. All HIPAA-related policies are posted and accessible to all
33 employees for review on the ASH Intranet site. Ongoing mandatory educational seminars
34 are afforded to staff.

35
36 **CONFIDENTIALITY**

37 ASH defines confidential information as non-public, proprietary information. The
38 guidelines established in the *Confidentiality (QM 8 – S)* policy are followed to ensure this
39 information is held in strict confidence, to safeguard the information received, and to protect
40 against defacement, tampering, or use by unauthorized persons or for unauthorized
41 purposes.

1 **DELEGATION OF CLINICAL SERVICES**

2 If clinical services activities are delegated to contractors, there is a documented oversight
 3 and evaluation process of these activities, including the exercise of oversight of delegated
 4 or subcontracted functions in accordance with DOL, URAC, NCQA, and health plan
 5 medical necessity review standards. For example, a mutually agreed upon description of
 6 the delegated Clinical Services Program – Non-Credentialed Practitioners (CS Program)
 7 includes:

- 8 • Clinical services activities for which each party is responsible;
- 9 • Delegated activities;
- 10 • Reporting requirements (including frequency);
- 11 • Evaluation process of the contractor’s performance;
- 12 • Approval of the delegated contractor’s CS Programs;
- 13 • The process for providing member experience and clinical performance data to its
 14 delegates when requested;
- 15 • The delegate’s clinical services (UM) system security controls in place to protect
 16 data from unauthorized modification;
- 17 • How the delegate monitors its clinical services (UM) denial and appeal system
 18 security controls at least annually;
- 19 • How ASH monitors the delegate’s clinical services (UM) denial and appeal system
 20 security controls at lease annually; and
- 21 • The remedies, including revocation of the delegation, if the contractor does not
 22 fulfill its obligations.

23
 24 Evidence shows that:

- 25 • The contractor’s capacity to perform the delegated activities prior to delegation is
 26 evaluated;
- 27 • The delegated contractor’s CS Program is approved at least annually;
- 28 • Regular reports as specified in the delegation agreement are reviewed and approved
 29 according to the report submission and frequency of reporting specified; and
- 30 • The delegated activities are evaluated annually to ensure they are being conducted
 31 in accordance with established ASH policy and expectations, applicable
 32 accreditation standards (URAC and NCQA), as well as applicable state and federal
 33 laws and regulations.

34
 35 For delegates that store, create, modify or use clinical services (UM) denial or appeal data
 36 for ASH:

- 37 • ASH will annually monitor the delegate’s clinical services (UM) denial and appeal
 38 system security controls in place to protect data from unauthorized modification;
- 39 • ASH will ensure that the delegate annually monitors its adherence to the delegation
 40 agreement or its own policies and procedures;

- 1 • ASH will review and document all modifications made by the delegate that did not
- 2 meet the modification criteria allowed by the delegation agreement or by the
- 3 delegates’ policies and procedures; and
- 4 • ASH will audit only if the delegate does not use a clinical services (UM) system
- 5 that can identify all noncompliant modifications, in which case, ASH will identify
- 6 and document:
 - 7 ○ The staff roles or department involved in the audit.
 - 8 ○ All UM date modifications, but may use sampling to identify potential
 - 9 noncompliant changes for the audit (5 percent or 50 of its files, whichever is
 - 10 less, to ensure that information is verified appropriately or the NCQA 8/30
 - 11 methodology).
- 12 • For any non-compliant modifications made by the delegate, ASH will:
 - 13 ○ Document all actions taken or planned to address the non-compliant
 - 14 modification findings.
 - 15 ○ Implement a quarterly monitoring process for each delegate to assess the
 - 16 effectiveness of its actions on all findings and continue to monitor each
 - 17 delegate until the delegate demonstrates improvement of at least one finding
 - 18 over three consecutive quarters.

19
 20 For delegates that store, create, modify or use clinical services (UM) denial or appeal data
 21 for ASH, but whose clinical services (UM) systems do not allow date modifications, ASH
 22 will require that each delegate provides:

- 23 • Policies and procedures that describe the functionality of the system that ensures
- 24 compliance; and
- 25 • Documentation or evidence of advanced system control capabilities that
- 26 automatically record dates and prevent modifications that do not meet modification
- 27 criteria.

28
 29 **NON-DISCRIMINATION**

30 ASH does not discriminate against a member, provider, or practitioner for any reason and
 31 does not support any discriminating against members for any reason, including but not
 32 limited to age, sex, gender, gender identification (e.g. transgender), gender dysphoria,
 33 marital status, religion, ethnic background, national origin, ancestry, race, color, sexual
 34 orientation, patient type (e.g. Medicaid), mental or physical disability, health status, claims
 35 experience, medical history, genetic information, evidence of insurability, source of
 36 payment, geographic location within the service area, or based on political affiliation. ASH
 37 renders credentialing, clinical performance, and medical necessity decisions in the same
 38 manner, in accordance with the same standards, and within the same time availability to all
 39 members, providers, practitioners, and applicants.
